DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 4, 7 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Schwartzman.

Schwartzman discloses a retaining device that holds a threaded fastener wherein the device includes a sleeve 12 and a series of fins 20 that extend inwardly from the sleeve and are skewed in the same direction from radial planes so that the fins will resiliently deform and engage the shank of the fastener to retain it. The sleeve member 12 is cylindrical and could inherently be inserted in a bore.

Allowable Subject Matter

Claims 3, 5, 6 and 8-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 12-22 are allowed.

Conclusion

Art Unit: ***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references to Braun et al, Kiczek, Johnson '503 and the British patent to Raymond disclose related fastener devices and are cited to further show the state of the art.
